

The inaugural "Shuffs Cup" has be run and won

The meeting was run over four full rounds of dirt track classes which was then followed by "Shuffs Cup" with the format being set up to be run in a team's event with a LeMons start there were two heats with each rider completing six laps each. The first six teams from each heat then went through to the final, and what a final it was.

Twelve teams were lined up for their LeMons start and were ready to race twelve on the starting line and the twelve waiting in the change over grid. The hooter sound and after a quick shuffle to their bikes they were off and racing, first off the blocks was Brodie Waters and he never looked back he got himself out to a handy lead for the change over to his older brother Josh after fifteen lap change over board was displayed. The other competitors were trying everything to try to catch the leader, but that wasn't to be, after the completion of the thirty lap event crowned **winners** of the 2009 inaugural "Shuffs Cup" were Josh and Brodie Waters, followed home in **Second** place by Ben Brooks and Rowen Tegart and closely behind them in **Third** position was Jason Stewart and Caleb Auricht

Thank you to everyone and anyone that contributed in anyway to supporting this event and Duane's three children.
